Breast cancer awareness is an effort to reduce the stigma of breast cancer through education on symptoms and treatment. Breast cancer culture, sometimes called pink ribbon culture, is the cultural outgrowth of breast cancer advocacy, the social movement that supports it, and the larger women's health movement. The pink ribbon is the most prominent symbol of breast cancer awareness, and in many countries the month of October is National Breast Cancer Awareness Month. Some national breast cancer organizations receive substantial financial support from corporate sponsorships.

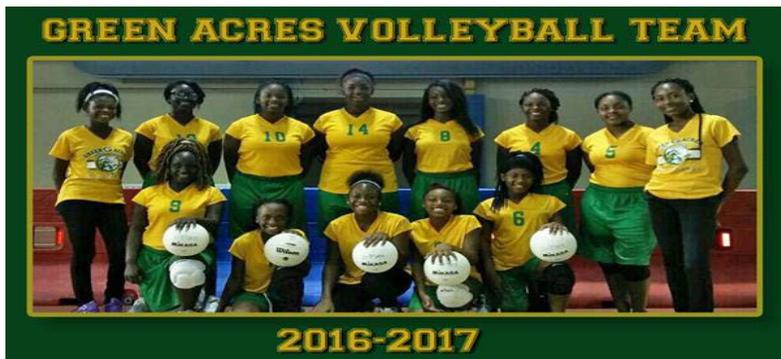

**Congratulations to our 2016 Star Students!**

## The History Makers Visits Green Acres

The History Makers Program took place September 30, 2016 in the school library. Dr. Jeannette Jones, our guest speaker from Alabama A&M, spoke and Joe Dickson from Miles college spoke to the chosen students about their careers and life. They also talked about how to be committed. 'Commit' was the History Makers subject of 2016. The History Makers Pledge is "Today, I Commit to my education. I do so realizing that a lot is expected of me. I do so knowing that I will have to study and work hard. I do so wanting to avoid anyone and anything that will tempt me not to succeed. I do so in respect and honor of the History Makers who have paved a way for me. I do so because I want to be the best that I can be. Today, I commit to my future based on knowledge of the past. I commit to winning, not losing. I commit to being and becoming the best that I can be. Today, I commit my life to one of excellence." ~Thanks to Mr. O Davis for bringing this special event to us every year.

Thanks to the Delta Sigma Theta Inc. for coming to our school and donating school supplies.
