

Hello Parents,

We are very excited to introduce you to our new parent app, Education Galaxy Connect. Education Galaxy is an online program that students can use at home and at school to practice important standards and concepts. Students can work self-paced on Education Galaxy and can monitor their own progress. You will be able to pull reports and see exactly where your child is performing well and where your child may need extra help. Set up notifications on student performance, activities, and Education Galaxy announcements. You control how you get notified!

Simply download the app from your smart phone and register as a parent. The app is free to download. Have your child log in to his or her Education Galaxy account and click on the  icon in the upper right-hand corner. This will generate a QR code. Simply use your EG connect App to scan the code and link your account with your child's account. Once you do so, it will unlock a new game for your child. They are going to love Galaxy Lander!

Wishing you the very best,

Jeremy Verret  
CEO, Education Galaxy
