- Students must contact their principal in writing no later than April 22nd and request to continue to receive assignments to improve their final grade.
- Students must complete assignments as requested by the teacher for each subject course that they want to improve their grade. Assignment submission methods must be coordinated with individual teachers.
- Students will receive written feedback on each assignment submitted.
- At the end of the school year, the student’s grade will be re-calculated and re-posted as the final grade.

**Students are strongly encouraged to continue working to improve their grade. The final grade will be posted to the transcript which will impact their final GPA.**
