

## Math Derby Vocabulary- First Grade

1. We add to find the \_\_\_\_\_. (**Sum**)
2. Four equal quarters make: (**1 whole**)
3. Sixty minutes equal: (**1 hour or an Hour**)
4. The short hand on a clock represents the: (**Hour Hand**)
5. A half hour is equal to: (**Thirty minutes/30minutes**)
6. 1 fourth equals: (**a quarter**)
7. We subtract to find the \_\_\_\_\_. (**difference**)
8. The long hand on a clock represents the: (**Minute Hand**)
9. 2 equal halves make: (**1 whole**)
10. A three dimensional shape that has 6 flat surfaces and all equal sides. (**Cube**)
11. A shape with 3 vertices. (**Triangle**)
12. We use pictures to show information on a: (**Picture Graph**)
13. A shape with 6 vertices. (**Hexagon**)
14. We use bars to show information on a: (**Bar Graph**)
15. A line with numbers on it and is used to count is called: (**Number Line**)
16. A shape with 4 vertices and all equal sides: (**Square**)
17. The point where two sides of a polygon meet- **Vertex**
