

Greetings BCS Families,

In recent days we have seen an increase in the number of students in our schools with flu-like symptoms. Because of our concern for the overall health and well-being of our students and employees, students with flu-like symptoms are sent home to recover.

Please keep your children at home when they have a fever or other flu-like symptoms. Also, report any confirmed cases of the flu to your school administrator or school nurse.

Remember, this is the flu season, and we must all do our part to prevent it from spreading. Encourage students to continue following health and hygiene protocols by covering their mouth when coughing and washing hands thoroughly on a regular basis.

Thank you.

- 

Dr. Mark Sullivan, Superintendent
Birmingham City Schools
