Directions for Administering the Code of Conduct Assessment

- Please share the correct grade level link (listed below) with your students as an assignment in schoology.
- PLEASE NOTE: Students must have claimed their accounts and be signed into their google classroom OR the teacher can pull it up with their account and test the student one on one (especially for our younger students)
- Students should click on the link and begin.
- Please ensure that the student spells your name correctly and only lists your first initial and last name. For example, Ms. Jennifer Williams should be J. Williams. This will make it much easier when disaggregating the data.
- You will also receive an excel document for your school once all administrations are complete.
