REMOTE LEARNING PLAN FOR CARVER HIGH SCHOOL

As students will not physically return to school this academic year due to the Covid-19 pandemic, Carver High School is transitioning to a Remote Learning environment at home.

Remote Learning will take place within each teacher’s Google classroom beginning April 13th. CHS students will have instruction and assignments in Google classroom from each of their high school classes, and all work will be submitted through the Google platform. There will be no final exams for CHS students.

**Seniors:** Seniors who are on track to graduate must have passed all of their classes during the 3rd nine weeks and accumulated 24 credits to be considered qualified for graduation. The grades that seniors earned at the end of the 3rd nine weeks will be posted again as their final grades. Seniors who would like to improve their final grade or GPA should complete the course work in Google Classroom.

**Students Enrolled in AP Classes:** All students who are enrolled in AP classes can take the online AP exam in order to receive the quality point/weighted GPA for the AP course. Seniors who are enrolled in AP courses are strongly encouraged to continue to review the content in these courses in order to be prepared for the AP exams.

**Chromebook Checkout:** To assist students who do not have a device at home, CHS will allow students to check out a Chromebook for use at home please email vhatten@bhm.k12.al.us if you are interested in checking one out.

*If students do not have internet access, paper copies of assignments should be requested from the teacher.*

**Grading Plan** March-13th through May 28th

If you currently have an A, B, or C you have two options:

- **Option 1:** Keep your 3rd nine weeks grade as your final grade. You must notify their teachers by email of your intentions for each class no later than April 13th.

- **Option 2:** Improve your 3rd Nine-Week grades by doing a few more assignments to increase your GPA which will be your final grades on your transcript. This will help increase your options for college. You do not have to do all of the assignments. You can complete enough assignments to increase your grade to your desired average.

**MANDATORY REQUIREMENTS**

If you currently have a D or F for 3rd nine weeks

- You must complete all the given assignments (2 per week) to ensure that you pass the class. If you are not doing the assignments your name will be reported to your counselor and your parents will be contacted immediately!
• There will be no summer school, remedial programs, or online credit recovery during the summer. If you do not pass all core courses and enough electives to reach the desired number of credits required for promotion you will remain in the same grade level Reach Class in the Fall.

• All students who receive additional services through an IEP or 504 plans will continue to receive the necessary support to complete all course work.

• Visit the school website to locate all teachers email address, office hours, and phone numbers.

Parents and students this process is new to us all, and we will be working throughout the remainder of the school year to refine it. By working together, we will overcome this challenge and continue to empower all of our students to maximize their unique potential. As always, please reach out to your child’s teacher, counselor, or administrator with any questions or concerns that may arise. All of our last name is Carver and we are still here to support our RAMS just as we have always done.

Sincerely,
Dr. Evelyn Nettles Hines
