

Woodlawn Magnet High School
Early College Academy of Arts and Environmental Science

January 27, 2015

Dear Sir or Madame,

Woodlawn Magnet High School is launching the Early College Academy of Arts and Environmental Science! The Early College Academy of Arts and Environmental Science is committed to providing its students a variety of opportunities and experiences to explore and plan for careers in the fields of Music Technology, Art Studio, Environmental Engineering and Environmental Science. Some of the goals of the Academy are to enhance the learning experiences through project based-learning, outdoor classroom experiences, real world problem solving opportunities. In addition we will strive to produce college ready students who have attained between 20-60 hours of college credit. To be effective and relevant, we believe it is critical that representatives from business and industry, community leaders, parents, students, and school staff all have opportunity to provide input and service. Therefore we are creating an Early College Academy of Arts and Environmental Science Advisory Board.

We invite you to serve on our Advisory Board. You have been recommended as a person with respected knowledge and experience and as one who will make a valuable contribution to this board. By serving on this board, you have the opportunity to guide the Early College Academy of Arts and Environmental Science in preparing its students for their future by acting as advocates to promote the importance of career and college awareness, exploration and planning.

The Advisory Board will meet quarterly in the first year of implementation and twice a year thereafter. You will receive an email with the tentative dates for the first meeting using an online app called Doodle Calendar.

Please consider our invitation and let us know by responding to the email with your availability to meet. If you have any questions or concerns please feel free to contact Tashina Lee, tlee@bhm.k12.al.us, (205) 231-8020.

Sincerely,

Tashina Lee
Coordinator, Early College Academy of Arts and Environmental Science
Woodlawn Magnet High School
